Eclipse Speaker

Product Description

Color Changing LED Lantern
10W Bluetooth speaker

We designed the Mooni Eclipse speaker with two philosophies in mind: design and sound. The smooth curves and our signature pine wood handle blends in beautifully with your decor while the concave shape enhances and delivers powerful sound. The LEDs illuminating around the speaker create a ring of fire effect when set on a dynamic light mode setting. Charge and go. Create your moment anywhere by simply taking your Mooni® with you.

9 colors, 4 color modes, and 4 brightness levels: Set a mood for every occasion by selecting your favorite color or mode: Flash, strobe, fade, Dance

Stereo sound: Get full stereo sound when you pair 2 speakers

Indoor / Outdoor Use: Weather & splash resistant

Bluetooth 4.2: Connect your music wirelessly

MicroUSB charging: Versatile, convenient Equipped for WireFree charging: Charge through any non-metal surface up to 5cm (plate sold separately)

Usage time: 4-12 hours

Remote Control: Ergonomic, simple-to-use design

Handle: Wood

mooni.
