

Wirefree Charging Plate

Our patented technology lets you charge your Wirefree Ready speaker/lantern with ease. It's unique because you can charge through any non-metal surface up to 5cm. Whereas other charging plates can only charge devices that have direct contact with the plate. With our technology, you can install the plate under a counter, shelf, table, etc. for a clean look, free from wires and clutter.

Technical Data

Dimensions:	17mm x 147mm x 127mm
Power source:	Plug in adapter
Waterproof Classification:	IP65
Weight:	0.27kg
